Pagrindinės savybės

- ✓ Control via PC, notebook, smartphone or tablet – or on the go, online and with the FRITZ!App Smart Home
- ✓ Button for changing the room temperature manually
- ✓ Records the temperature over the last 24 hours
- ✓ Calcification protection
- ✓ Keylock – separately for radiator control and remote access
- ✓ Fits all common radiator systems (standard valve M30x1.5mm - Heimeier, Junkers, MNG, Braukmann, Oventrop, Honeywell, Landis+Gyr)

Aprašymas

Automated heating

Heat your rooms according to an individual schedule, so you'll always return to a warm home and can forget about turning the radiator on or off. Automating your heating routine means you'll consume less energy, which saves up to 30 percent of heating costs. You can also adjust the room temperature manually using the buttons on the FRITZ!DECT 302.

Measure the temperature

FRITZ!DECT automatically measures the ambient temperature in the vicinity of the device. Via the FRITZ!Box user interface, FRITZ!Fon or the FRITZ!App Smart Home you can always keep an eye on the temperature - even while on the go.

Connect via DECT

The smart radiator control is integrated into your home network via DECT. It's easy to configure the various features the FRITZ!Box interface.

Automatic updates

Thanks to the automatic update function, the smart radiator control is capable of learning and new features can be added.

Control from anywhere

FRITZ!Fon lets you flexibly adjust the temperature in your rooms at the touch of a button, while you can also manage the FRITZ!DECT 302 with your tablet or PC. Group switching is particularly convenient if you're using multiple FRITZ!DECT, which allows you to change the settings of all radiator controls in the group at the same time. This can also be done with the free FRITZ!App Smart Home when you're on the go or online when you're at home.

Smart features

The sharp e-paper display is legible from any angle and is very energy-efficient. FRITZ!DECT 302 also automatically detects when a window is open and informs you right away. Plus, you'll receive a notification if there is a loss of connection or the battery runs low.

Small and compact

FRITZ!DECT 302 is characterized by its extremely compact design and can be used on practically any radiator. This means you can use it almost anywhere you want throughout the home.
