- ✓ 3 months of Voicemod Pro included: get access to over 140 voices and awesome sound effects, change your voice or use your soundboard through the action buttons, create your own voice with Voicelab

Aprašymas

Hercules Stream Essentials Kit offers the best bundle if you want an XLR audio setup. With the Hercules Stream 200 and the new Hercules XLR microphone, the HXD-700, you will have everything you need to control and broadcast a clear and professional sound. Hercules Stream 200 XLR is an audio controller featuring a built-in sound card, allowing streamers to separate the audio mix that they're listening to from the mix being played for their audience.

Thanks to this audio controller with a built-in LCD screen, you can manage all your audio sources in real time: games, chat software, music, XLR microphone, game console, second computer, and more! Hercules Stream 200 XLR lets you enjoy a customized experience by individually viewing and controlling the sound level of up to 8 audio track — for you, and for your audience! Instantly enable, turn down, turn up, mute or unmute the sound!

Included with the Hercules Stream Essentials Kit, enjoy 3 months of Voicemod Pro! Have fun with over 140 voices and awesome sound effects directly launched through your Stream 200 XLR!

STREAM ESSENTIALS KIT: THE PRO KIT TO GET TO THE NEXT LEVEL

Take full control of your stream audio, experience a professional voice quality

More than an audio controller, Hercules Stream 200 XLR is also a command center! You'll love using the up to 8 handy assignable action buttons to customize your controls: start your stream, change scenes, change your voice, multiple mute, URL launcher, and more!

The HXD-700 is the new Hercules XLR microphone that will allow you to broadcast a warm and precise voice with the Unidirectional dynamic capsule. It also includes a low cut and mid range boost, with physical toggle activation.

Stop worrying about audio settings, get everything you need to get to the next level. BE LOUD.
