Aprašymas

LevelOne FEU-0511 is 4-port 10/100Mbps + 1 100BaseFX Fast Ethernet Switch that is designed for small or medium network environment to strengthen its network connection. This product is compact in size, making it ideal for SMB users with limited space. It is a superb choice for expanding your network.

1-Port 100BaseFX (Multi-Mode, SC Connector)

The fiber uplink can provide connectivity for a small group of users over a larger distance such as on a campus or between indoor classrooms.

Auto-MDI/MDI-X

Every port can automatically sense your type of cable, so there is no need for crossover cables whether you are connecting this switch to another switch or to a computer.

Auto-Negotiation

Every port can automatically sense if the connected network devices are running at 10Mbps or 100Mbps and Half/Full-Duplex mode, and adjust accordingly.

Non-Blocking

This switch receives and forwards traffic seamlessly with its non-blocking wire-speed. Every port simultaneously supports up to 200Mbps of bandwidth in full-duplex mode. This feature provides full wire speed to the connected devices and allows you to run a smooth network.

Store-and-Forward

By this function, this switch can maximize network performance while minimizing the propagation of bad network packets.

- Provides flexibility of 4 x 10/100BASE-TX ports
- 100Base-FX Multi-mode fiber for the link up to 2km
- 10/100Mbps-Full/Half-duplex, Auto-Negotiation, Auto-MDI/MDIX
- IEEE 802.3x Flow Control protects against lost packets for reliable data transmission
