Aprašymas

The light and compact multitasker with extra power for smoother screwdriving

The IXO is the powerful and convenient cordless screwdriver and multitasker for around the home. The new generation of this tool makes light, smooth work of tightening screws on flat-pack furniture assembly or when doing repairs: A stronger motor delivers a higher RPM and 20 % more power compared to its predecessor. With the new 2.0 Ah lithium-ion battery, tool runtime has been increased so there’s less recharging hassle on longer, more demanding jobs. This screwdriver is compact and ergonomically designed for a naturally comfortable grip and intuitive handling and it features a handy LED 360° light ring for better visibility and shadow-free working. Best of all, the IXO can be used for additional tasks that go beyond screwdriving. The attachment interface is compatible with all IXO Collection attachments so when work is done, it’s the handy helper for grinding spices and boosting the barbecue.
