Pagrindinės savybės

- ✓ Differentiates between harmless candle fumes and the risk of fire to avoid false alarms
- ✓ Notifies you when the alarm is sounded via the app with emergency number speed dialling
- ✓ Can be connected to other Twinguards and Smoke Detectors
- ✓ Customizable air quality limit values
- ✓ Stores room air quality data for a period of three months

Aprašymas

Professional fire safety and constant air quality measurement combined into one device.
The Twinguard smoke detector not only warns you in case of fire, but also constantly monitors the air in your home.
Twinguard is a new member of the Bosch Smart Home System offering reliable protection - both in case of fire and burglary. Combined with other intelligent smoke detectors and Twinguards, it sounds the alarm and activates the smart cameras in the Bosch Smart Home. You are therefore always informed of what is going on in your home – even when you are not there.

Professional smoke detection

Thanks to unique Bosch dual ray technology the smart smoke detector provides maximum fire safety and sounds an unobtrusive advance alarm as soon as smoke develops. This lets you react immediately and take action if necessary.

Optimum room climate

Twinguard continuously monitors air quality, temperature and relative humidity and thus promotes healthier living. You can also activate an automation option that sends you a push notification when values leave the optimum range.

Smart system

By integrating it into the Bosch Smart Home System, the intelligent smoke detector offers now even more functions and benefits. For you, the main bonus is extra protection in the event of an emergency – both in case of fire and burglary. In addition, you can easily read the constant air quality monitoring values in the Bosch Smart Home App.
Smart forwarding to connected smoke detectors everywhere in your home
Stay on the safe side: as soon as a Twinguard detects smoke, it passes on a signal to all connected smoke detectors and Twinguards in your home. An alarm is immediately sounded on all smoke detectors. Even if you are in the cellar, you will still hear the alarm when the oil in the frying pan overheats in the kitchen so you can take action faster.

Always informed of the situation at home

When smoke occurs, your smart Twinguard smoke detector not only activates the advanced warning, but all the indoor and outdoor cameras connected to the system as well. They begin recording and send live images directly to your smartphone to keep you best informed about what is going on in your home.

Scare off potential burglars

Add the Twinguard to your alarm system for comprehensive burglary protection. Door/window Contacts or Motion Detectors pick up intruders trying to enter your home. The siren of the Smoke Detector immediately raises the alarm and passes it onto all connected Smoke Detectors in your home. At the same time, the integrated Philips Hue lamps start to flash red. Scared off by acoustic and optical alarm signals the intruder flees – and the burglary is foiled.

Always perfect air quality

The Twinguard helps you to create the atmosphere that you feel comfortable in. It continuously measures the constituents of the air in your room and notifies you when it deviates from the values that you have defined as optimum. Is the air in the children's room too stuffy at the moment? Flashing Philips Hue lamps in the living room draw your attention to this.

Techninė specifikacija

Features	
Detector type	Combi detector
Interconnectable	Yes
Wireless connection	Yes
Product colour	White
Maximum range	100 m
Mounting type	Surface-mounted
Placement supported	Horizontal
Built-in speaker(s)	Yes
LED indicators	Alarm
Light alarm	Yes
False alarm protection	Yes
International Protection (IP) code	IP20

Suitable for indoor use	Yes
Mobile app support	Yes
Power	
Power source	Battery
Battery technology	Alkaline
Battery voltage	1.5 V
Number of batteries supported	6
Compatible battery sizes	AA
Operational conditions	
Operating temperature (T-T)	5 - 30 °C
Operating relative humidity (H-H)	0 - 93%
Ports & interfaces	
Connectivity technology	Wireless
Wi-Fi	Yes
Wi-Fi frequency	2.4 GHz
Weight & dimensions	
Width	138 mm
Depth	41 mm
Height	138 mm
Weight	440 g
Packaging data	
Quantity per pack	1 pc(s)
Package width	181.5 mm
Package depth	102.8 mm
Package height	182 mm
Packaging content	
Mounting kit	Yes
Battery included	Yes
Screws included	Yes
Number of screws	2
Manual	Yes
Other features	
Country of origin	China
