Pagrindinės savybės

- ✓ Scratch-resistant: The extremely hard glass coating (surface hardness = 9H) effectively protects against scratches.
- ✓ Unbreakable: the innovative composite material combines the surface hardness of glass with the flexibility of plastic.
- ✓ Ultra slim and crystal clear - for pin sharp, brilliant colours [Ultra-HD] and unadulterated tablet fun. Protective cover compatible.
- ✓ Dirt-repellent: High-tech Anti-Fingerprint coating for less dirt, best touch function.
- ✓ Contour and openings are optimally designed for the iPad (7./8./9. Gen.)/Air (3. Gen.). Made in Germany.
- ✓ Simple, bubble-free application with the EASY-ON® Eco Mounting Frame (solid cardboard, 100% recyclable).

Aprašymas

Tablet Glass (9H), unbreakable, ultra slim, invisible, with EASY-ON® Eco Mounting Frame

The DISPLEX Tablet Glass is the perfect combination of conventional bulletproof panzerglas and innovative, unbreakable premium PET protective film. With a surface hardness of 9H, it offers very good protection against scratches and other damage. At the same time, it is ultra-slim with 0.3mm, resistant, flexible or bendable and therefore unbreakable. The DISPLEX Tablet Glass is manufactured with the latest laser technology in our production facility in Straubing, Germany, and is precisely designed to the contour of the tablet display - Made in Germany. The unrestricted functionality, colour brilliance and case compatibility are of course guaranteed.

Case-friendly

DISPLEX Tablet protective glass is manufactured to within 5/100 mm of the tablet display contours and therefore fits perfectly on your tablet. In addition, the protective film is ultra-slim at 3mm. This means that all standard-sized protective cases can be used with the screen protection glass. Thus, your tablet is optimally protected all around by a combined protection of the DISPLEX Tablet Glass and your favourite case.

Anti Fingerprint

Die oberste Schicht unserer 4-Layer Technology besteht aus einem High-Tech Plasma Coating. The hydro- and oleophobic anti-fingerprint coating is grease- and dirt-repellent, extremely long-lasting and ensures optimal touch and scrolling. This technology not only makes your display look more beautiful, it also keeps it clean longer and therefore requires less frequent cleaning. Note: the DISPLEX tablet protector also supports smart tablet writing accessories, such as the Apple Pencil or the Samsung S Pen.

High-performance adhesive

Once the protective glass has been fitted, the high-performance adhesive ensures optimum adhesion properties and a clear look. The adhesive is adapted to all display coatings of the various manufacturers so that the protective film for your tablet holds reliably in the long term. The visual appearance is not affected either: despite the screen protection film, you can enjoy gripping videos and photos with maximum transparency and vibrant colours [ultra HD quality].

Simple, bubble-free application

The EASY-ON® Eco Mounting Frame makes mounting the Tablet Glass quick, easy and precise. The result: no crooked positioning of the screen protector on the display, no concealed openings for speakers or microphones and certainly no bubbles under the protective glass. Good for the environment: the EASY-ON® Eco Mounting Frame is made of recyclable premium solid cardboard and can be recycled with waste paper without hesitation after use.

Techninė specifikacija

Features	
Screen protector type	Clear screen protector
Brand compatibility	Apple
Compatibility	iPad 7. Gen.\niPad 8. Gen. \niPad 9. Gen.\niPad Air 3. Gen.
Maximum screen size	26.7 cm (10.5")
