Aprašymas

Room Thermostat

Auto-Optimized Heating for Your Favorite Spot

Comfortable Heating Where You Need It

Experience coziness at its finest. When paired with the Thermostatic Radiator Valve, the Room Thermostat automatically adjusts your heating to maintain your ideal comfort at the thermostat's location rather than relying on the temperature measured at the radiator.

Convenient Control with Just a Tap

Already have many Kasa Smart Thermostatic Radiator Valves? Supplement it with additional Room Thermostat KE110 to control your entire heating system. With room thermostat, you can control a single TRV in a room anytime, anywhere, or seamlessly control multiple TRVs simultaneously in a room. With group control, you can effortlessly manage your TRVs with a single tap to achieve your perfect temperature for winter.

2.4" E-ink Display, reads like real paper.

Always Bright, No Need to Trigger!

Reflective Display

Easy on the eyes.

Low-power consumption.

Clear & Sharp

Large bold numbers are readable even from meters away.

Wide View Angle

Easy to read from almost any angle.

Glare-Free

No screen glare, even in bright sunlight.

Flexible Placement

Place your Room Thermostat anywhere in your home quickly and easily. Sit it on a table or shelf, stick it to a wall with the included adhesive, or attach it to any metallic surface.

Up to 1-Year Battery Life

The Room Thermostat KE110 uses two replaceable AAA batteries to stay powered for up to 1 year.
