Pagrindinės savybės

- ✓ Brushless motor with BITURBO technology runs on two batteries for powerful performance, longer service life, and increased runtime
- ✓ Extremely robust design with full metal deck perfectly suited for the high demands of tough mowing tasks
- ✓ High convenience thanks to 46 cm cutting diameter, grip handle with easy 2-step height adjustment, and space-saving vertical storage

Aprašymas

GRA 18V2-46 PROFESSIONAL:

Maintaining larger lawns often comes with rigorous demands that ask for a powerful lawn mower. We developed the cordless GRA 18V2-46 Professional with BITURBO technology as a strong and reliable performer for your lawn – all in the Bosch Professional 18V System. Its strong brushless motor runs on two 18V batteries and ensures high performance, increased runtime, and a long service life. The collapsible handle allows you to fold the mower compactly for easy transport and storage, even in a vertical position. Its ergonomic soft grip handle with easy 2-level height adjustment helps you to work in a healthier posture, making your work more comfortable. The lawn mower has a cutting diameter of 46 cm and offers a 6-level cutting height adjustment from 30 to 70 mm. The mower’s metal deck is extremely robust; it withstands higher loads and supports a longer product service life. Its 60 litre fabric grassbag and mulch plug give you the flexibility to either collect your clippings or use them as a natural fertilizer for your lawn.

Compatible with the Bosch Professional 18V System and with the multi-brand battery alliance AMPShare.

The lawn mower comes with both a mulch plug and a 60 litre fabric grassbag.
