Charge three devices simultaneously

The compact and powerful Universal Travel Adapter allows simultaneous use of the AC power socket and the dual USB ports. The input voltage of the multi adapter plug is 100-250V, meaning that it can be used worldwide to charge multiple devices.

Just push the sliders on the side of the multi plug to reveal the three most common international plugs - EU, UK, and US - and rotate the pins for sockets in Australia or China.

Certified by FCC, UKCA, CE and ROHS, and made with high quality fireproof polycarbonate material, this Universal Adapter is perfect for daily use during your trip.

It has safety shutters for child protection that can only be opened with force of more than 75N (7.5Kg) per hole, and its BS1362 compliant fuse (including a spare) gives you 100% peace of mind wherever you may go.
