Pagrindinės savybės

- ✓ Four-way switch for convenient control of the FRITZ! Smart Home
- ✓ Integrated temperature sensor for the automatic control of FRITZ! radiator controls
- ✓ Easy monitoring of the smart home with the high-contrast e-paper display
- ✓ FRITZ! stands for regular updates, data security and top energy efficiency

Aprašymas

Use the four-way switch to conveniently operate your smart home devices at the touch of a button. With its integrated temperature sensor, FRITZ!Smart Control 440 combines with FRITZ! radiator controls to ensure the ideal room temperature at all times. With the central e-paper display and the flexible application options, you always have your smart home in view.

Convenient operation of the FRITZ! Smart Home

Specify up to 12 devices or device groups, which you can switch on/off and control as desired using the three views on the four buttons. For example, you can switch on/off devices connected to the FRITZ! sockets, or change the room temperature with the FRITZ! radiator controls at the push of a button. Compatible Zigbee devices can be easily controlled as well.

With FRITZ!Smart Control 440, additional practical smart home applications can be realized. This way you can quickly activate templates or scenes, switch the answering machine on or off, and display the QR code for the Wi-Fi guest access for your guests.

If desired, FRITZ!Smart Control 440 can be combined with FRITZ! radiator controls to always ensure the ideal room temperature – the integrated temperature sensor makes it possible. Use the four-way switch at a central location in your home or always keep it close to wherever you are in the room. The automatic heating programme of the FRITZ! radiator controls orients itself on the temperature measured at precisely this position.

With FRITZ!Smart Control 440 you can always enjoy the perfect room temperature.

The central e-paper display lets you know the room temperature and the humidity at the location. The individual views of the FRITZ!Smart Control 440 show the current device status and which functions are assigned to the individual buttons. If desired, the temperature and humidity over time can also be displayed.

Keep an eye on your smart home at all times.

Your FRITZ!Smart devices receive regular automatic updates with new functions and improved security. FRITZ! means something special: The FRITZ!Smart Control 440 comes with long product maintenance. The automation and control of the device take place in the home network.

And should you ever have a question – Our friendly support is always happy to help.
