Aprašymas

Consolidation point patch cable, Cat.6A, S/FTP, grey, 5 m" from LogiLink Professional

LogiLink's new consolidation point cables (CP cables) are perfect for flexible floor distribution, especially if used together with LogiLink's consolidation point boxes (CP boxes). Consolidation points (CPs) are stationary distribution points in false ceilings, underfloor systems or cable ducts. They used as additional flexible connections between the patch panels and the junction boxes. This means that the office cabling can be adapted much more efficiently and flexibly to local needs.
