Pagrindinės savybės

- ✓ Very easy to read 2-inch LCD display
- ✓ Helps you to monitor electricity consumption, electricity costs and duration of electricity use.
- ✓ CEE 7/7 safety plug, 3x CEE 7/3 safety sockets
- ✓ 5 display modes with real-time performance monitoring (power display range, voltage display range, energy consumption display, electrial cost setting range and total cost display)
- ✓ Simple 3-button operation (Mode, UP, Reset).
- ✓ Rated voltage: 230 V, 50 Hz, 16 A, 3600 W max.
- ✓ Protection class IP44
- ✓ With overload protection and safety flaps
- ✓ Housing material: Polycarbonate
- ✓ Color: Black/Orange

Aprašymas

Product information "3-way outdoor socket strip, energy cost meter, IP44, 2.0" LCD and protective flaps" from LogiLink
The LogiLink EM0008 is a 3-way outdoor socket strip (type CEE 7/3), which is equipped with an integrated energy cost meter and a practical LCD display. It is splash-proof to IP44 and therefore ideal for use in the garden or other outdoor areas. The device accurately measures (±2 % accuracy) and displays the current power consumption (W), voltage (V), accumulated energy costs (€) and total consumption (kWh). This allows you to easily recognise inefficient electrical appliances and reduce your electricity costs. The information is shown on a large LCD display, which offers 5 different display modes. It is easy to operate using three buttons (Mode, UP, Reset). A built-in overload protection and child safety shutters on the sockets ensure the necessary safety.

Techninė specifikacija

Technical details	
AC outlets quantity	3 AC outlet(s)
Material	Polycarbonate (PC)
Display	
Built-in display	Yes
Display	LCD
Power	
Power source type	AC
Maximum current	16 A
Maximum power	3600 W
Weight & dimensions	
Width	70 mm
Depth	274 mm
Height	51 mm
Weight	539 g
