Pagrindinės savybės

- ✓ Analogue / Digital Steering wheel PC D-pad, Menu button, Mode button, Start button
- ✓ Wired USB 2.0
- ✓ Black Metal
- ✓ Cable

Aprašymas

To celebrate the 70th anniversary of the Ferrari® brand, Thrustmaster presents the TS-PC RACER Ferrari 488 Challenge Edition racing wheel. TS-PC RACER, a powerhouse of technologies created to enhance gaming performance and offer a racing experience closer to reality, now comes with a replica of the wheel of the real Ferrari 488 Challenge car, officially licensed by Ferrari®.

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Gamintojas ir pardavėjas neatsako už galimus duomenų neatitikimus ar tipografines klaidas. Prieš įsigyjant rekomenduojame pasitikrinti aktualią informaciją.

Power supply

External TURBO POWER power supply delivers constant power and massive peak power, to instantly respond to ultra-fast requests from the game. Toroidal-shaped for optimized power efficiency of 86% (with just 14% heat generation), with a finless design. Peak power: 400 watts!

Realistic "competition" wheel design

9:10 scale replica (12.6”/32 cm in diameter) of the wheel of the real Ferrari 488 Challenge car, officially licensed by Ferrari®.
Face plate and 2 paddle shifters crafted of black brushed anodized metal.
15 built-in LEDs for tachometer function (RPM).
2 directional pads (D-pads) with push function + 2 rotary buttons with push function + 8 action buttons = 26 programmable functions in total!
Hand-stitched wrapping crafted of the same Alcantara® material imported from Italy as that used on genuine Ferrari® wheels.
Thrustmaster TS-PC servo base, and detachable Ferrari 488 Challenge wheel with metal face plate. Ecosystem-ready.
2 large, wheel-mounted sequential paddle shifters (5.5”/14 cm tall – 100% metal – Tact switch with life cycle exceeding 500,000 activations).

Compatibility

PC compatibility (Windows® 10/8/7) ensured thanks to the Thrustmaster drivers available for download from the support.thrustmaster.com/ website. The drivers allow you to make sure that you always have the latest firmware version available for the racing wheel.

Powerful brushless servomotor Force Feedback base

Very responsive 40-watt motor for particularly dynamic and powerful effects, plus enhanced feedback.
The TS-PC RACER’s motor provides powerful 40-watt brushless Force Feedback and incredible velocity (dynamic torque): from long stall curves (STALL mode) to super-responsive zigzags (DYNAMIC mode).

Compatible with the Thrustmaster racing ecosystem

TH8A shifter*, T3PA-PRO* and T3PA* pedal sets, and add-on racing wheels* (Ferrari F1 Wheel Add-On, Ferrari GTE Wheel Add-On, 599XX Evo 30 Wheel Add-On Alcantara® Edition, TM Leather 28 GT Wheel Add-On, TM Rally Wheel Add-On Sparco R383 Mod and TSS Handbrake Sparco Mod).

Cooling

Motor Cooling Embedded system (patent pending): maintains dynamics with the new motor by ensuring that there is no overheating and while remaining silent. Provides 50% more dynamics, 4 times greater stall force and heat dissipation via monophasic cooling.

And more...

Mixed belt-pulley and gears system (smoother, more fluid and less noisy than helical gears) with metal ball-bearing axle.
Internal memory and upgradeable firmware.
Robust and versatile attachment system, compatible with all mounts (desks, tables, etc.).

H.E.A.R.T and F.O.C.
Field Oriented Control: H.E.A.R.T (HallEffect AccuRate Technology) provides 16-bit resolution (65,536 values), while the new field oriented control (F.O.C.) algorithm dynamically optimizes the response to intense torque demands. The motor responds dynamically and swiftly to increased torque requirements, thereby offsetting and preventing losses in terms of power.

Box contents

Racing wheel, TURBO POWER power supply, attachment system, user manual and consumer warranty information.

Techninė specifikacija

Input device	
Device type	Steering wheel
Gaming platforms supported	PC
Gaming control function buttons	D-pad, Menu button, Mode button, Start button
Gaming control technology	Analogue / Digital
Buttons quantity	25
Programmable buttons	Yes
Ports & interfaces	
Connectivity technology	Wired
Device interface	USB 2.0
Ergonomics	
Product colour	Black
Housing material	Metal
LED indicators	Yes
Power	
Power source	Cable
Software	
Windows operating systems supported	Windows 10, Windows 7, Windows 8
Weight & dimensions	
Width	525 mm
Depth	380 mm
Height	310 mm
Weight	10.3 kg
Steering wheel dimensions (WxDxH)	320 x 320 x 140 mm
Packaging data	
Package width	380 mm
Package depth	525 mm
Package height	320 mm
Package weight	11.2 kg
Package type	Box
Packaging content	
Power supply included	Yes
