Pagrindinės savybės

- ✓ **Simplify Rack Cable Routing**: Mounts horizontally to standard 19-inch server racks to support clean vertical cable runs in server rooms or network closets, helping relieve strain on equipment ports during installation and servicing
- ✓ **IT Grade**: This 10-pack is built for bulk deployment and cost-effective shipping; Each low-profile lacing bar occupies just one-third of 1U, making it perfect for dense rack environments
- ✓ **Reduce Thermal Buildup**: Supports passive cooling by keeping cables organized and out of airflow paths, helping maintain proper rack temperatures and prevent heat-related performance throttling
- ✓ **The IT Pro's Choice**: Built to keep racks tidy, organized, and airflow-efficient, our rugged rack accessories are tested for strength and long-term performance; Backed by free lifetime 24/5 multilingual technical support
- ✓ **Guard your gear**: Constructed from solid steel with a 2-Inch (5.1cm) offset and rounded profile, each bar is designed for high weight capacity and cable strain relief, preserving signal quality and port longevity

Aprašymas

Route your cables on these horizontal cable managers to reduce cable tension in your server rack

These lacing bars install horizontally on the front or back of your rack to provide a secure mounting point for you to run cables. You can attach your cables to the lacing bars using cable ties to reduce the tension on your cables and prevent damage to the ports on your rack-mount equipment. The lacing bars feature a 2 in. offset for hassle-free cable access.

Protect your equipment

Cable lacing bars protect your equipment by offloading the weight of the cables in your rack, which reduces the constant strain that can be put on the ports of your rack equipment. The lacing bars also provide a route for cables, which enhances passive cooling within your rack. This helps to ensure your rack remains at an optimal temperature, to extend the life of your equipment and minimize or eliminate downtime.

Discreet and sturdy design

These cable lacing bars are constructed of solid steel and occupy just one-third of a rack U at each install point. The lacing bars are engineered to run horizontally and feature a 2 in. offset at 75 degrees, which enables you to easily run cables from the back of your equipment. The round solid-steel design ensures a high weight capacity, unlike flat lacing bars that can bend easily.

Save on shipping costs

This package includes 10 cable lacing bars, enabling you to buy multiple bars packaged together. This is ideal for large-scale implementations, because it significantly reduces the packaging, and in turn, shipping costs.

Techninė specifikacija

Features	
Type	Cable lacing bar
Product colour	Black
Housing material	Steel
Rack capacity	1U
Weight & dimensions	
Width	7 mm
Depth	483 mm
Height	11 mm
Weight	130 g
Packaging data	
Quantity per pack	10 pc(s)

Package width	117 mm
Package depth	510 mm
Package height	65 mm
Package weight	1.73 kg

Technical details

Compliance certificates	RoHS
-------------------------	------

Logistics data

Master (outer) case width	435 mm
Master (outer) case length	292 mm
Master (outer) case height	205 mm
Products per master (outer) case	1 pc(s)
Harmonized System (HS) code	85389099
