Aprašymas

MOVA S10 cleaning robot

Let MOVA S10 take care of the cleanliness in your home while you take care of more pleasant things. The cleaning robot is a smart device that vacuums and mops floors with incredible efficiency. Powerful Vormax™ suction (7,000 Pa), VibroTurbo mopping technology and smart carpet cleaning make even the toughest dirt effortless. Equipped with a 5200 mAh battery, the robot can clean a total of up to 200 m² on a single charge. All this backed up by advanced LDS navigation and operation with voice assistants such as Alexa, Siri and Google Assistant. MOVA S10 guarantees cleanliness without compromise!

Vormax™ for even greater efficiency

Crumbs and dirt don't stand a chance! The MOVA S10 cleaning robot performs on any surface, taking care of hard floors and carpets alike! It uses specially designed air ducts, offering a suction power of 7,000 Pa, which means that it removes food crumbs, trash or pet hair from its path with unprecedented efficiency. What's more, with the Carpet Boost function, it deep cleans carpets and rugs by automatically increasing suction power.

VibroTurbo mopping system

Dried juice or coffee stains? That's no problem for the S10 robot! The device is powered by Supersonic Vibration technology, which means it scrubs floors at 3,500 times per minute with constant and even pressure. This effectively removes even the most stubborn dirt. But that's not all! Now you can set the direction of the robot to clean the floors according to the direction of the wood fibers or panels. You don't have to worry about scratches - S10 is safe for any surface.

Thorough edge cleaning

Say goodbye to dust and other dirt that collects in hard-to-reach places. The MOVA S10 cleaning robot is equipped with a special brush that reaches edges along walls and corners with even greater precision. This will make every nook and cranny in your home sparkle clean!

Smart cleaning

MOVA S10 was created with every detail in mind. Thus, it effectively prevents the unnecessary spread of dirt during cleaning. The robot lifts the mop pads to a height of 7 mm to protect carpets from getting wet while vacuuming, but also lifts the brush while mopping so that no unwanted marks and dirt are left on the cleaned floor. Note: the mop lift function is suitable for carpets no more than 3 mm high. For taller carpets, it is best to set the forbidden zone in the application.

Precise obstacle avoidance

The robot will easily find its way around your apartment. It uses LiDAR technology and SLAM algorithm to accurately plan cleaning paths. Equipped with a dynamic laser and 3DAdapt™ system, it effectively detects obstacles and objects standing in the way. It avoids them, avoiding potential hazards, while smoothly moving around objects to precisely remove debris.

Even longer cleaning

The robot performs well in both smaller and larger spaces. Equipped with a 5200 mAh battery, it can run for up to 200 minutes on a single charge. That's enough to clean 200 sq. ft. of floors. The enlarged 300 ml water tank makes this task easier by eliminating the need for frequent refills.

Intuitive operation

Cleaning has never been so easy! Enjoy convenient and easy operation with a dedicated app. Thanks to it, you will customize the cleaning robot's operation according to your needs. In it you can create maps for several floors, set forbidden zones, as well as virtual boundaries that the robot should not cross. But it can be even easier! S10 supports voice assistants: Alexa, Siri and Google Assisant, and that means all it takes is a simple voice command for the device to do your bidding.

Included

- Robot
- Charging station
- Side brush
- Power cord
- Installed mop pad
- Installed mop pad holder
- Owner's manual
- Installed water tank
- Owner's manual

Model	MOVA S10
Battery capacity	5200 mAh
Suction power	7000 Pa
Dust container capacity	470 ml
Water tank capacity	300 ml
Operating time	Up to 200 min
Mopping function	Yes (mopping pad)
Self-cleaning function	No
Navigation system	LDS+Dynamic Laser
Functions	5 suction levels, 3 water flow levels
