Aprašymas

MOVA E20 cleaning robot (white)

The MOVA E20 cleaning robot is a versatile vacuuming and mopping robot that offers advanced cleaning functions in a compact package. Thanks to its state-of-the-art navigation technology and high suction power, it effectively removes dirt from a variety of surfaces while making daily home maintenance easier.

Smart Pathfinder™ navigation.

The E20 robot uses Smart Pathfinder™ technology to precisely scan the space using an LDS laser. With this help, the device creates an accurate map of the rooms, planning the optimal cleaning route and avoiding obstacles. Even in low-light conditions, the robot flawlessly navigates through the home, ensuring thorough and safe cleaning.

Effective cleaning

The MOVA E20 offers an impressive 5,000 Pa of suction power to quickly and efficiently remove a variety of debris, from fine dust particles to larger dirt such as screws and pebbles. The powerful V-shaped brush picks up dust and debris even from hard-to-reach areas, such as the crevices between tiles and carpets, providing a deep and thorough cleaning of your entire home.

Mopping function with adjustable wetness level

The MOVA E20 not only vacuums, but also mops, making it ideal for comprehensive floor cleaning. The robot is equipped with a 245 ml water tank, which allows for longer mopping without frequent refills. Three levels of water flow control allow you to precisely adjust the level of wetness to the type of surface, avoiding wet floors.

Effortless overcoming of obstacles

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Gamintojas ir pardavėjas neatsako už galimus duomenų neatitikimus ar tipografines klaidas. Prieš įsigyjant rekomenduojame pasitikrinti aktualią informaciją.

The MOVA E20's compact size makes it easy to maneuver around furniture and reach hard-to-reach areas, such as spaces under couches and against walls. The robot can easily negotiate thresholds up to 18 mm high, allowing it to move smoothly between rooms without getting stuck. This functionality ensures uninterrupted and smooth cleaning of the entire apartment.

Long runtime and powerful battery

Equipped with a 3,200 mAh battery, the MOVA E20 can run for up to 260 minutes in silent mode, allowing it to clean an area of up to 175 m² on a single charge. The robot automatically returns to the charging station when the battery level is low, and resumes work after recharging, ensuring effective cleaning without interruption.

Intuitive control

The MOVA E20 offers flexible management with a dedicated mobile app that allows users to set the cleaning mode, suction level and work schedule. Users can also create room maps, designate forbidden zones and use voice commands, thanks to compatibility with assistants such as Alexa, Siri and Google Assistant, making it even easier to control the device.

Included

- cleaning robot
- docking station
- power adapter
- side brush
- mop pad
- instruction manual

Dimensions of the cleaning robot	320 x 320 x 96mm
Weight of the cleaning robot	2.8kg
Maximum suction force	5000Pa
Battery capacity	3,200mAh
Water tank capacity	245ml
Dust container capacity	330ml
Threshold crossing	18mm
Main brush	V-shaped brush
Mop type	Flat mop pad
