Aprašymas

MOVA Turbo Hair Dryer (Gray)

The MOVA Turbo is a high-performance hair dryer that combines a powerful 110,000 RPM motor with intelligent overheating protection, ensuring fast and safe drying. It emits 200 million negative ions, smoothing the hair and giving it a healthy shine. Thanks to its lightweight, compact design (330 g) and quiet operation (58 dB), it's convenient for use both at home and on the go. It offers 4 temperature settings and 2 airflow speeds, and its elegant design and durable air filter make it an excellent choice for discerning users.

Power and speed you can count on

Thanks to its brushless motor with an impressive speed of 110,000 revolutions per minute and an optimized airflow structure, the MOVA Turbo generates a wind speed of 65 m/s and an airflow of 55 m³/h. The result: medium-length hair dried in just 2 minutes! It's the perfect solution for people with busy lifestyles who value efficiency and convenience.

Smart heat protection

To preserve the health and shine of your hair, the MOVA Turbo uses an advanced temperature control algorithm. It measures the heat 200 times per second and maintains it at an optimal level of 57°C, protecting the hair's structure from overheating. Additionally, by emitting 200 million negative ions per cm³, it effectively neutralizes static, smooths the hair, and gives it a healthy shine.

Quiet operation for greater comfort

Power doesn't have to mean noise! The MOVA Turbo is equipped with 10-layer noise-reduction technology and an optimized airflow system that minimizes vibrations and friction. As a result, the noise level does not exceed 58 dB, making hair drying more pleasant and less of a nuisance.

Ultra-lightweight and ergonomic

The MOVA Turbo weighs just 330 g, making it extremely comfortable to use—even during long drying and styling sessions. Its compact design makes it perfect for both home use and travel. Intuitive buttons and an ergonomic handle ensure comfortable, effortless use.

Full control over styling

Customize your drying experience to suit your needs! The MOVA Turbo offers 4 temperature settings (cool, warm, and hot air, plus a hot-to-cool cycle), as well as 2 airflow speeds (low and high). Built-in LED indicators make it easy to select the right setting, ensuring that every hairstyle looks perfect.

Innovative design and durability

It’s not just about technology—appearance matters too! The MOVA Turbo stands out with its elegant, glossy casing, which gives it a modern and stylish look. The hair dryer is available in several color options, allowing you to match it to your personal preferences. In addition, the dual-layer air filter—designed with professional hair salons in mind—effectively traps dust particles and product residue, extending the device’s lifespan. The MOVA Turbo is the perfect combination of advanced technology, functionality, and elegant design—created to care for your hair quickly, safely, and comfortably!

Manufacturer	MOVA
Model	Turbo
Color	Gray
Voltage	220–240 V
Airflow Speed	65 m/s
Air Volume	55 m³/h
Operating Modes	Four temperature settings, two speed settings
Motor	110,000 RPM
Ionization	200,000,000 anions per cm³
Noise Level	≤58 dB
Indicator light	Temperature mode icon indicators
Weight	330 g
Dimensions	256 x 77 x 82 mm
Rated power	1,600 W

Gross weight: 730, Net weight: 500, Box length: 31,00, Box width: 12,00, Box height: 7,50, Ionization: TAK, Cold shot function: Yes, High-speed function: Yes, Power (W) [eng]: 1600, GPSR Link: https://psr-assets.innpro.pl/health_and_beauty/sg_health_and_beauty_hair_appliances.pdf, GARAN: <https://garan.innpro.pl/mova/6977328061980>, PPWR: <https://ppwr.innpro.pl/mova>
