Aprašymas

MOVA R3000 Electric Shaver

The MOVA R3000 is a compact electric shaver designed for a comfortable and quick shave, whether at home or on the go. The device combines a compact design with an efficient system of three rotating heads, enabling a close shave while maintaining skin comfort. A sturdy metal housing and practical features, such as a magnetic cover with a mirror, make the shaver ideal for daily use and travel.

Compact design made for travel

The shaver stands out with its small housing featuring a distinctive triangular shape, which improves ergonomics and makes the device fit comfortably in your hand. Its compact size allows you to easily slip it into a toiletry bag, travel bag, or pocket. This makes the MOVA R3000 a practical solution for frequent travelers or anyone who wants to keep a shaver close at hand.

Three-head system for a closer shave

The R3000 model is equipped with three floating rotary heads that adapt to the shape of your face. This design allows for more precise access to hard-to-reach areas and reduces the need to go over the same skin surface multiple times. A special mesh with a widened V-shaped groove makes it easier to capture hairs growing in different directions, which speeds up the shaving process.

Precision blade system

The shaver uses a system of 45 blades made of precision steel. The blades are self-sharpening, ensuring high shaving performance over a long period of use. They work in conjunction with a fine shaving mesh that enables a close shave. The increased radius of the mesh edges reduces resistance when gliding over the skin, making shaving smoother and more comfortable, even on sensitive skin.

Wet and dry shaving

The MOVA R3000 allows for both wet and dry shaving. This means you can use it in the traditional way or with shaving foam or gel. This flexibility lets you tailor your shaving routine to your preferences and enhances comfort, especially for sensitive skin.

Sturdy metal housing

The device’s body is made of high-quality zinc alloy. This construction makes the shaver more durable and gives it a sturdier feel than models with plastic housings. The champagne gold finish gives it an elegant look and makes the device appear modern.

Built-in mirror in the head cover

The magnetic head cover is equipped with a small mirror. This allows you to quickly touch up your appearance or check your stubble even when there is no mirror nearby. This practical solution is especially useful when traveling or at work.

Included in the set

- MOVA R3000 electric shaver
- Magnetic head cover with built-in mirror
- Storage case
- USB charging cable (approx. 50 cm)
- Cleaning brush

Manufacturer	MOVA
