Aprašymas

MOVA Aero C Hair Dryer (Pink)

The MOVA Aero C hair dryer combines a futuristic design with advanced hair care technology. Thanks to its innovative C-shaped chamber, a motor reaching up to 110,000 rpm, and an airflow of up to 68 m³/h, it dries hair in a flash—in as little as 40 seconds (for short hair). With 1,800 W of power, airflow speeds of up to 65 m/s, and intelligent temperature control, styling is not only fast but also safe for your hair.

C-Shape DualForce Cyclone™ Technology - Faster and More Even Drying

One of the device's greatest advantages is the proprietary C-Shape DualForce Cyclone™ technology, which uses two active air intakes to create a stable, high-speed cyclone. This solution improves airflow efficiency by approximately 25%, resulting in faster drying without sudden bursts of air. Hair is dried evenly and gently, helping it retain its natural softness and healthy appearance.

GlossFlow Chamber - smooth and shiny hair

The C-shaped GlossFlow chamber utilizes the Coanda effect, which gently draws and styles hair during drying. Air is directed along the hair cuticles, helping to reduce frizz and lock moisture inside the strands. As a result, strands become silkier, smoother, and naturally shiny.

360° Plasma Care - 600 million ions for healthy hair

The advanced plasma system releases up to 600 million ions that envelop each strand from root to tip. They neutralize static, help maintain proper moisture levels, and make daily styling easier. As a result, hair is smoother, softer, more manageable, and looks healthier, even with frequent blow-drying.

Smart temperature control - effective protection against overheating

Dual NTC sensors monitor the temperature up to 2,000 times per second, keeping it below 55°C. This reduces the risk of heat damage and protects hair from drying out. It's the perfect solution for those who want to style their hair daily without worrying about its condition.

Versatile styling and intuitive operation

The set includes three practical attachments: a concentrator for precise styling, a smoothing brush, and a diffuser that helps enhance the hair's natural curl. The touch-and-visual control panel makes it easy to select settings, and the automatic standby mode activates when the device is laid flat. This makes the hair dryer convenient and intuitive for everyday use.

Lightweight, quiet, and comfortable for everyday use

The MOVA Aero C weighs just 340 g (without the cord), so it doesn't strain your hand even during longer styling sessions. The noise level does not exceed 57 dB, allowing you to use the device comfortably at any time of day. Add to that its compact dimensions (75 × 79 × 260 mm), which make the hair dryer handy and easy to store.

Included

- Hair dryer x1
- Styling concentrator x1
- Smoothing brush x1
- Diffuser x1
- User manual x1
- Safety instructions x1

Manufacturer	MOVA
Model	Aero C
Color	Pink
Dimensions	75 × 79 × 260 mm
Rated voltage	220–240 V
Rated frequency	50/60 Hz
Rated power	1800 W
Weight	340 g (without cord)
Motor speed	110,000 rpm
Noise level	≤57 dB
Maximum airflow	68 m³/h
Maximum airspeed	65 m/s
Plasma ions	600 million
