Trust Lenovo to cover the full lifecycle of your IT assets and free up your technicians to focus on what counts. A true business partner dedicated to your satisfaction and success, Lenovo offers a portfolio of service and support solutions.

Keep your Lenovo™ drive and data within your custody, improving security and potentially alleviating civil liability risks.

Lenovo’s Keep Your Drive service lets you dispose of business data on your terms. (1)

Keep the drives secure and on premise if sensitive to data security or have specialized data liability requirements.

Predictable Budgets

Provides predictable upfront costs versus finding budget in the event of drive failure.

Regulatory Compliance And Protection

Helps your organization avoid the legal and monetary repercussions associated with a breach in data security.

Data Remains Secure

Eliminates the need for tracking failed drives in transit, giving IT staff the time to concentrate on mission-critical business activities.

When Lenovo replaces a defective part under warranty, we keep it. With the Keep Your Drive service, you keep your drive and data.

• Confidential information remains with you
• Covers multiple drives or failures
• No need to track failed hard drives in transit

KYD should be purchased at the time of system purchase.

Coverage continues for the duration of a system’s limited warranty, even if the hard drive has been replaced.

KYD covers multiple drives in a system and multiple failures.

Both Solid State Drives (SSD) and hard drives are covered by KYD. Some models also require an upgrade to on-site service when the SSD is soldered to the system board.

Lenovo™ Keep Your Drive (KYD) is part of a comprehensive portfolio of Lenovo™ services that support the entire life cycle of your PCs.

(1) Under the terms of the Lenovo Limited Warranty, when Lenovo replaces a defective part, that part becomes the property of Lenovo.
