## Pagrindinės savybės

- ✓ Flexible TPE sheath
- ✓ Full copper Superflex Xtreme AWG22 shielded cable
- ✓ UL
- ✓ IP67
- ✓ A-Coded

## Aprašymas

The ACT Industrial sensor cables (actor cables) are provided with a TPE (Thermo Plastic Elastomer) sheath and are therefore highly resistant to mechanical loads such as movements in a chain. The connectors are overmoulded TPE and degree of protection is IP67.

Superflex Xtreme cable, each individual core consists of 19 strands of copper that together form a diameter of AWG22. This makes the cable more flexible than, for example, a standard AWG24/7 patch cable.

Stranded conductors are build up of uninsulated thin strands of wire twisted together.

How greater the number of strands in a stranded conductor, the greater the flexibility of the wire.

Techninė specifikacija

| Features                    |                               |
|-----------------------------|-------------------------------|
| Cable length                | 5 m                           |
| Connector 1                 | M12                           |
| Connector 2                 | No                            |
| Connector gender            | Male                          |
| Cable colour                | Black                         |
| Conductor material          | Copper                        |
| Insulation material         | Polyvinyl chloride (PVC)      |
| AWG wire size               | 22                            |
| Jacket material             | Thermoplastic elastomer (TPE) |
| Rated voltage               | 300 V                         |
| Certification               | UL, UL94-V0                   |
| Operational conditions      |                               |
| Operating temperature (T-T) | -40 - 105 °C                  |
| Packaging data              |                               |
| Quantity                    | 1                             |
