you can maintain a productive, organized workspace wherever you choose to work.

Turn your Windows laptop into a complete workstation with a single USB-C cable

The AC7093 docking station gives you the complete package. Turn your laptop into a complete workstation by connecting a single USB-C cable to your laptop. Connect up to two 4K monitors (max. resolution 4096x2160p @ 60Hz) to your laptop via the HDMI ports with DP Alt Mode version 1.4. The docking station is equipped with one Gigabit LAN network port, one USB-C port (5Gbps), two USB-A ports (5Gbps), and one USB-A 2.0 port (480Mbps).

Expand to two 4K HDMI monitors with MST support

The AC7093 supports Multi-Stream Transport (MST), allowing you to expand your desktop with two HDMI monitors.

Does your laptop’s USB-C port support DP Alternate Mode version 1.4? The dual monitor setup supports two monitors with a maximum resolution up to 4K@60Hz for each monitor. If your laptop is equipped with DP Alternate Mode version 1.2, the dual monitor setup supports one 4K@30Hz monitor and one 1080p@60Hz monitor.

Charge your laptop with max. 100W from the docking station

The dock has a Power Delivery pass-through port that provides max. 100W. Connect your laptop’s USB-C charger to the PD pass-through port on the dock and your laptop will charge through the docking station. Please note that a power adapter is not included and is only required if you charge your laptop through the USB-C port.

Detachable USB-C cable included

The dock comes with a detachable 1-meter USB-C to USB-C connection cable. This makes it easy to connect the dock to your laptop.

We strongly recommend that you use the included USB-C connection cable. If you happen to lose the cable, please purchase a new one with at least the following minimum specifications: 5Gbps and 100W Power Delivery. The USB-C cable should have a maximum length of 1 meter.

USB ports

The USB-C port is a USB 3.2 Gen1 data port with a maximum throughput speed of 5Gbps. Two USB-A ports are USB 3.2 Gen1 data ports with a maximum throughput speed of 5Gbps. One USB-A port is a USB 2.0 data port with a maximum throughput of 480Mbps. Connect USB peripherals such as a keyboard, mouse, and external storage such as an SSD.

Work in multiple locations or travel for work?

The AC7093 is ideal for working in multiple locations. Its compact size and out-of-the-box monitor compatibility make it easy to connect displays and the wired LAN network. The docking station is ideal for tossing in your bag when traveling for work. It features a lightweight design and a one-meter detachable USB-C connection cable.

User scenarios

Avoid cable clutter and connection problems. For many users, getting all the cables connected correctly isn’t easy, and why should it be?

With the AC7093 docking station, you can create a tidy desk and work environment where you can get to work as soon as you plug in a single cable. Whether you are in the office or at home, you can connect up to two monitors, a keyboard, and a mouse.

Flexible workspaces are more common in offices today. A universal docking station lets you work comfortably at different desks. Just plug in the cable and you are ready to go. The AC7093 is a lightweight device that fits easily in your bag.
