Pagrindinės savybės

- ✓ Reel 500 mtr
- ✓ This cable is conform CPR Euroclass: B2ca, s2, d1
- ✓ Full copper conductors and comply with the ANSI/TIA-568-C2 performance requirements
- ✓ With pair Splitter
- ✓ Specifications comply to international standards

Aprašymas

Permanent twisted pair cabling also known as vertical or horizontal cabling is used above ceilings and in cable ducts and connects to the wall outlet at the work space. From the outlet patchcables are used to connect to the notebook, docking station or pc.

Permanent cabling is typically installed by installers and because of that you can also see the term installation cable used.

Permanent cabling contains more copper then patchcables / patchcords and because of this is excellent for bridging longer distances. Because of the usage of more copper in a solid wire permanent cabling is also know as solid cabling. Solid / permanent cables are less flexible then patchcables, patchcables are also known as zipcords.

Techninė specifikacija

Features	
Cable length	500 m
Cable standard	Cat6a

Cable shielding	F/UTP (FTP)
Connector 1	No
Connector 2	No
Product colour	Grey
Connector 1 gender	No
Connector 2 gender	No
Jacket material	Polyvinyl chloride (PVC)
Conductor type	Solid
Conductor material	Copper
AWG wire size	23
Frequency	500 MHz
Operational conditions	
Operating temperature (T-T)	-15 - 60 °C
Weight & dimensions	
Outer diameter	7.5 mm
Weight	60 kg
Packaging content	
Quantity per pack	1 pc(s)
Logistics data	
Harmonized System (HS) code	84733080
