Pagrindinės savybės

- ✓ Connectors: C19 IEC Lock+ rewireable
- ✓ Protects against accidental disconnection in critical equipment, PDUs, servers, network equipment, etc
- ✓ Suitable for all devices with C20 power connection; device doesn't need a locking mechanism of its own
- ✓ Low Smoke Zero Halogen (LSZH) housing reduces the risk of high concentrations of toxic gases in case of cable damage due to fire or short circuit
- ✓ Minimizes risks of damage and downtime
- ✓ Maximum load: 16A/250V~

Aprašymas

DESCRIPTION

The ACT C19 IEC Lock + rewireable connector is suitable for all devices with a C20 power connection. The IEC Lock + feature offers extra protection against accidental disconnection in critical equipment with a C20 power connection. The locking mechanism is universal and works with all major PDU brands. The PDU doesn't need to have its own locking mechanism and no tools are required to lock and unlock the connector. The IEC Lock prevents accidental disconnection/release of the cable from both the equipment and the PDU. This minimizes the risk of damage and downtime. The LSZH (Low Smoke Zero Halogen) housing of the connector reduces the risk of high concentrations of toxic gases in case the connector is damaged by fire or short circuit. The ACT IEC Lock can be used in Europe, Australia (16A/250V~), USA, Canada and Japan (20A/120V~).

Techninė specifikacija

Features	
Type	C19
Connector type	Straight
Connector gender	Female
Number of pins	3
Voltage	250 V
Rated current	16 A
Product colour	Black, Red
Material	Nylon, Steel
Certificates	
Certification	CE, CSA, ENEC 05, UL
Weight & dimensions	
Width	30.5 mm
Length	80 mm
