Aprašymas

THE PERFECT MIXING ACTION

Let a highly trained assistant do the work

The mixing attachment rotates around its axis while the mixing head rotates in the opposite direction, making sure all ingredients are perfectly and evenly mixed. The air will remain in the dough, making it soft and supple. All you have to do is choose the right attachment for your favorite recipe

and impress with excellent results.

For all procedures before baking

Mixing, whisking and mixing. The food processor comes equipped with a dough hook, a whisk and a mixing attachment to meet all your needs. The mixing attachment mixes the ingredients when you need a soft and airy consistency, the dough hook will efficiently knead even the hardest dough, and the whisking attachment will be your assistant for perfect creams or delicate egg white foam.

It adapts perfectly to the recipe

With the help of the control knob, different speeds can be set. This guarantees ultimate versatility in the different stages of food preparation, so you can prepare everything from classic mixing to whipping egg whites for snow. The speed set to a minimum and the practical cover prevent the ingredients from splashing at the very beginning of work.

It saves time and energy

Gorenje kitchen robots save time and energy, while providing excellent results. The powerful device is characterized by excellent mixing results and precise monitoring at all times. Gorenje kitchen robots have power and speed, and at the same time, enough sensitivity and finesse to be able to perfectly mix everything, from a thick mixture for biscuits to a delicate egg white snow. The powerful motor makes mixing, kneading and beating like a joke.

Grind meat, make smoothies

Beside all the mixing, whisking and kneading, a quality glass blender will help you blend the vegetables into a smooth soup or fruit into a delicious smoothie. The included meat grinder attachment will bring you the benefits of healthy, home-made minced meat, kibbe or sausage.

Bowl with the lid

The stainless steel bowl gives the appliance a modern and elegant look, and extends its useful life. The transparent lid affords control over the mixing process, prevents the contents from splashing around, and allows adding ingredients during the mixing process.

Dishwasher safe parts

The stainless steel bowl and all stainless steel parts can be washed in a dishwasher. It will make your daily work in the kitchen easier. The blender is made of quality glass and can be washed after you remove the blade.
