Aprašymas

MOVA P10 Pro Ultra Cleaning Robot

The MOVA P10 Pro Ultra is an advanced cleaning robot that combines 13,000 Pa of suction power, intelligent controls, and full automation to ensure maximum efficiency and convenience. Thanks to MopExtend™, FlexReach™, and CleanLift™ technologies, it handles hard-to-reach areas with ease, and the docking station minimizes the need for manual intervention. It’s the perfect solution for discerning users who value a clean home every day.

Thorough cleaning in every nook and cranny

The MOVA P10 Pro Ultra is a modern robot vacuum that redefines home cleaning. Equipped with innovative MopExtend™ technology, it can reach hard-to-reach nooks and crannies, including under low furniture with a clearance of up to 4 cm. Thanks to its liftable side brush, it effectively removes dust and dirt from corners and around rounded furniture. At the same time, it intelligently separates the vacuuming and mopping processes, preventing dry and wet debris from mixing—which is crucial for effective carpet cleaning.

Powerful Suction and Advanced Cleaning

Thanks to innovative Vormax™ technology, the MOVA P10 Pro Ultra offers impressive suction power of 13,000 Pa, adjustable across five levels. The intelligent dirt detection system allows the robot to automatically adjust suction power and mop moisture levels based on the type of debris. With its wet mopping and automatic re-cleaning features, it eliminates streaks and minimizes the need for manual intervention. The optional CleanChop™ brush (sold separately) effectively handles tangled hair and pet hair.

Smart Features for Full Control

The MOVA P10 Pro Ultra is a truly smart robot, designed for large and complex living spaces. Equipped with an advanced obstacle-avoidance system, it precisely recognizes its surroundings and plans its cleaning route using 4-level mapping. The robot raises its brushes and mop to adapt to different surfaces and prevent the spread of dirt. Its ability to navigate thresholds up to 22 mm allows it to move seamlessly between rooms.

Full Automation and Convenient Operation

The MOVA P10 Pro Ultra offers comprehensive cleaning management, so you can enjoy a clean home without having to get involved in daily cleaning. The docking station features an automatic dustbin emptying function with a capacity of up to 2.5 months of cleaning, a self-cleaning washing station, mop pad washing with hot water at 70°C, hot-air drying, automatic refilling of water and detergent in the cleaning robot, and optimized fluid consumption thanks to 4.5L and 4L tanks.

Advanced Technologies for Better Results

The use of innovative FlexReach™ technology allows for more effective vacuuming and mopping in corners, along edges, and along baseboards. CleanLift™, on the other hand, automatically lifts the brushes and mop, preventing the transfer of dirt between dry and wet surfaces. The MOVA P10 Pro Ultra automatically adjusts its cleaning settings to different floor types, ensuring excellent results.

Dedicated app and voice control

Operating the MOVA P10 Pro Ultra is extremely intuitive. You can control the robot using the mobile app or voice assistants. With it, you can remotely start and pause cleaning, select specific rooms and cleaning zones, adjust operating modes, initiate docking station cleaning, and even control it using a compatible smartwatch.

Perfect for Discerning Users

If you’re looking for a robot vacuum that delivers the highest level of cleanliness without any effort on your part, the MOVA P10 Pro Ultra is an excellent choice. The combination of powerful suction, intelligent controls, and full automation ensures your floors are always perfectly clean, leaving you free to enjoy your free time. Choose the P10 Ultra Pro today and see for yourself just how convenient cleaning can be!

Included in the set

- robot vacuum
- main brush
- brush cover
- side brush
- dust bin
- dust bin filter
- 3.2L dust bag x2
- mop pad holders (2)
- mop pads (2)
- cleaning tool
- cleaning solution (200 ml)
- docking station ramp
- user manual
