Professional Sound Quality with Superior Configuration
Transcends ordinary soundbars and Bluetooth speakers available on the market

Tailored acoustic structure

The optimized high-penetration speaker layout delivers crystal clear sound, allowing rich sound details and high-fidelity audio to be experienced from various positions.

Powerful Acoustic
Configuration
Featuring a powerful configuration of 1.1.1 channels and 4 units, as well as speakers made from premium industry materials,the product delivers immersive three-dimensional surround sound and high-fidelity audio with rich details, rivaling the experience of professional cinemas.

Superior height-channel sound
15°
The optimal 15-degree angle for height-channel speakers has been carefully tested to provide exceptional immersion without space reflection

Ultra-high frequency range
20kHz
The high-frequency speaker, crafted from premium industry materials, extends beyond the ultra-high frequency range of 20kHz, delivering a melodious yet not harsh high-pitched sound

Ultra-high sound pressure level of single unit
94dB
The sound pressure level of a single Z100 can reach the ultra-high sound pressure level of an entire sound bar system, delivering a more immersive and powerful sound, enhanced spatial audio transparency, and an expanded sound stage

Low-frequency extension algorithm

Low frequencies are optimized and gained, lowering the extension frequency to deliver more thrilling and powerful bass performance

Single Z100 Delivering a sound effect that transcends ordinary soundbars and Bluetooth speakers available on the market

Ordinary Bluetooth speaker
2.0 channels dual speaker

Single Z100
1.1.1 channels | 4 high-quality speakers

Ordinary soundbar
2.0 channels dual speaker

Independent Subwoofer Z100-SW

The optional independent subwoofer features a deep star gray appearance and utilizes larger ferrite magnets and CONEX elastic wave materials inside, delivering strong and rich high-fidelity bass for an enhanced immersive experience.

Professional Acoustic Tuning
Golden Ear Tuning Team
With 6 large listening laboratories, 3 large full anechoic laboratories, 11 patented technologies and 9 international honorary awards, the TCL Golden Ear tuning expert team delivers the finest sound quality to you.

Joint tuning with Dolby

Professional tuning, in collaboration with the Dolby Acoustics team, involves in-depth adjustments to sound pressure level, phase synchronization, dynamic range, and other details, achieving a four-dimensional acoustic enhancement.
