Aprašymas

Keep Track of Your Energy Use
Smart Wi-Fi Socket, Energy Monitoring

More Insightful Energy Tracking

Offers more comprehensive insights into home appliances' power consumption with more intuitive and straightforward data visualizations.

Estimate Your Energy Bill

Set your electricity rate (supports single or time-of-use billing) to estimate your energy bills. Use Tapo smart plugs to automatically turn on your power-hungry devices during off-peak periods, lowering your energy bills.

Improved Power Safety

Your connected device will automatically shut off when the power usage exceeds the set threshold, protecting your household's safety.

Schedule

Set schedules to automatically turn on/off your smart plugs according to your daily routine and preferences.

Auto-Off Timer

Cut off power to the connected device after it is left on for a set time. Works well with curling irons, space heaters, and more, saving energy and reducing fire risks.

Guaranteed Safety

Has undergone rigorous quality inspections to receive CE and UKCA certification. It uses premium UL94-V0 flame-retardant materials to minimize burn risks.

Set Scenes

Control multiple devices all at once for a customizable scene. Instantly set the perfect ambience for any activity.

Away Mode

Intelligently simulates someone being home by turning the plugged-in device (like a lamp) on and off, making it appear like someone’s home.

Compact Size

Tapo P110 is built smaller to avoid blocking adjacent sockets, making it convenient for daily use.

Enjoy Easy, Friendly Setup and Use

Unique onboarding technology makes setup steps simpler for faster connection.
