Aprašymas

Set of 3 PolarPro Shutter filters for DJI Mavic 3 Pro

PolarPro filters are specially designed for the DJI Mavic 3 Pro. In the set you will find 3 pieces of product: ND8, ND16 and ND32 filter, which allow you to reduce the shutter speed to a cinematic level. They are perfect for filming during the day or in bright environments. In addition, they were created from sturdy materials, and the case makes them easy to store.

Thoughtful design

The light weight of the filters is due to the aluminum frame, so you don't have to worry that the product will affect the flight quality of your drone. The lens is made of German CinemaSeries tempered glass, which has a low refractive index. The filters are placed in a protective case, so you can be sure that they will not be damaged.

In the set

- x3 PolarPro Shutter filters for DJI Mavic 3 Pro
- protective case
