Aprašymas

The full-featured Anthra Line USB 3.2 Type C to C, 5A, cables from Lindy's Cable Lines concept are the professional choice for high performance connections in commercial AV and IT installations.

Anthra Line USB 3.2 cables are premium connections that feature triple shielded construction with tinned copper conductors for performance and corrosion resistance. High quality gold plated contacts and connectors maintain optimal signal integrity and maximum reliability.

USB bandwidths up to 20Gbps are supported for rapid transfer of large data volumes. These cables are E-marked to provide 100W (20V 5A) of power to devices using the most efficient power delivery profiles. The cable supports DisplayPort Alternate mode at max. 4K 60Hz.

USB Type C features a new reversible connector, so no matter which orientation the cable is inserted, a connection will always be found. This connector allows a fully bi-directional cable with automatic host and device negotiation.
