Aprašymas

Minix H1 Wireless Video Transmitter (HDMI to HDMI)

The Minix H1 enables wireless transmission of Full HD 1080p video and allows you to quickly connect HDMI devices without the need for cables. The set consists of a transmitter and receiver that operate in Plug & Play mode—there is no need to install an app, log in, or perform complicated setup. With a range of up to 50 meters, you can freely stream video from a laptop, computer, or other HDMI source without spatial limitations.

Instant operation without apps or configuration

The transmitter works immediately after connection—simply plug the transmitter and receiver into the HDMI ports and power them via USB. No need to install software or create an account means time savings and maximum convenience.

Full HD 1080p image – clear and detailed

Enjoy Full HD 1080p quality, legible text, sharp details, and a comfortable viewing experience for both work and entertainment. The Minix H1 supports Mirror and Extend modes, allowing you to customize the display to suit your needs. Screen mirroring is ideal for presentations, while extending the desktop facilitates multitasking by increasing your workspace.

Stable wireless transmission up to 50 meters

A range of up to 50 meters allows for comfortable use of the device in larger rooms, conference rooms, or at home. The wireless connection eliminates the need to run cables across the entire room, improving aesthetics and user convenience.

Versatile use for work and entertainment

The transmitter is ideal for many scenarios—from business meetings and conferences, through office work, to home theater or gaming. You can easily stream content to a TV or monitor, whether you’re working, studying, or relaxing with a movie.
