Designed with precision and elegance, this model is perfect for both seasoned DJs and beginners. Experience unparalleled control and creativity with features that cater specifically to your artistic needs, like the FX section, the Stems functionalities and so much more.

Whether you are performing at a club, a party, or honing your skills at home, the DJControl Inpulse T7 White Edition transforms your music and elevates your performances. Discover the future of DJing with a controller that combines innovation with timeless style.

THE DJ CONTROLLER TO HELP YOU START SPINNING ON VINYL!

Experience the thrill of vinyl turntables with the Hercules DJControl Inpulse T7 motorized DJ controller. The modern take on a classic tool emphasizes the genuine feeling of vinyl discs, giving you a taste of the past with all the benefits of digital technology. Aspiring DJs, take your first steps towards spinning on vinyl with authentic turntable materials, for authentic DJ moves.

A unique motorized DJ controller that will make you stand out

DJs can precisely blend and beatmatch thanks to the standard-sized 7" platters that quickly accelerate from 0 to 33⅓ RPM. Additionally, they can remove the vinyl discs and slipmats from the platters, recreating an authentic turntable experience in a digital format.

It’s your turn to get creative

Stems – the essential, real-time audio separation tool every DJ needs. With one-button controls to isolate vocals or instrumentals, DJs can effortlessly create personalized mixes on the fly. The possibilities for creating new mashups and blends are endless. Available in DJUCED and Serato DJ.

Perfect your transitions

Equipped with three FX Select buttons, a paddle, and a Filter knob for each deck, along with an extra control knob and Beat -/+ buttons, the DJControl Inpulse T7 White Edition offers DJs the tools to fine-tune their mixes and transitions using a wide array of effects.

Equipped with powerful learning tools

The controller's interactive features, like the Beatmatch Guide and Intelligent Music Assistant (IMA), offer real-time feedback to help users quickly develop their skills. The Beatmatch Guide shows how to adjust the tempo fader or jog wheel for beatmatching, while the IMA suggests the best upcoming tracks based on energy, key, and tempo.
