Aprašymas

Highly effective 2-way privacy filter protects the screen from scratches and damage and limits the field of view to+/- 30°. I.e. from an angle of approx. 30° the display appears black, so that your privacy and sensitive data are protected from unwanted side views, compliance with the General Data Protection Regulation (GDPR) is supported.

Thanks to the magnetic attachment, the Privacy Safe privacy filter can be attached and removed quickly and easily. The neodymium magnets are 100% tested and safe to use on monitors.

Dual Surface Technology: the Privacy Safe privacy filter has 2 different turnable sides. The matt anti-reflective surface allows non-reflective, glare-free use (especially in bright light) and reduces annoying fingerprints. The other, glossy side provides a clearer view of the screen and maximum colour brilliance, especially indoors and in medium to dark light conditions.

The integrated bluelight filter reduces harmful short-wave blue light, providing eye relief and reducing the likelihood of blue light-related eye irritation and sleep disturbance.
