professionals. WF01 server racks are available in various sizes and configurations, allowing for optimal cable management and safe storage of network equipment. Lanberg WF01 rack cabinets are an ideal choice for any ICT installation. Combining functionality, durability and elegant design, the WF01 series is a sure choice for your server infrastructure needs.

## Easy installation

With the simple and easy installation of our server racks, you save time and effort, allowing you to focus on more important tasks. Regardless of your level of experience, you can get your data center or server network up and running quickly. Our racks come with clear paper installation instructions that guide you through the process step-by-step. In addition, in an effort to ensure the highest quality of use, we also provide detailed video instructions that are available online. So you can be sure you have access to a visual guide to help you understand and complete each step.

## Solid workmanship

Reliability and durability are key features of Lanberg server racks. Our rack cabinets are designed to provide rugged construction and reliability depending on the application. Made from high-quality cold-rolled steel, our server racks offer not only great durability, but also the highest precision manufacturing.
Each Lanberg rack features a robust design that is the result of an advanced manufacturing process that combines innovative solutions and careful craftsmanship. We take care of every detail, ensuring excellent protection of cartons and high-quality painting with a matte surface, which emphasizes the professionalism of our products

## Flat Pack

Our Lanberg server racks are packaged in a "Flat Pack" format for self-assembly. Thanks to this, you can easily transport our racks in vehicles with limited cargo space, as well as have full control over the assembly process.
Our years of experience in the market have given us a great understanding of how to protect components in cartons to minimize the risk of damage during transportation. We use high-quality protective materials and careful packaging to ensure that your server racks arrive in perfect condition - ready for assembly right away.

## Accessories

Lanberg is constantly expanding the available list of accessories for its RACK cabinet series to allow users to perfectly match their individual needs.
Our current range includes, among others:
Shelves: universal, butt, side, pull-out shelves
Server enclosures
Brush panels
Cable organizers
End caps
Cooling accessories: ventilation panels, thermostats
Patch panels, keystone panels
PDU strips
Assembly support tools
Our accessories are carefully designed and tailored to fit various RACK cabinet models, ensuring perfect compatibility and functionality. With them, you can optimize the use of space in your rack and keep your cabling organized.
Visit www.lanberg.eu to see the full range and choose the accessories that perfectly fit your RACK cabinet. All to create a professional and functional solution for storing and managing your network infrastructure.

## Efficient cooling

Lanberg WF01 series of server cabinets is also dedicated to those who are looking for solutions for use in demanding temperature conditions. Our cabinets allow you to achieve optimal performance without sacrificing functionality, aesthetics and security.
By using two vents in the ceiling panel, we ensure excellent airflow and effective cooling. We offer users even greater control over the temperature inside the cabinet, which is key to maintaining optimal operating conditions for equipment.

## Techninė specifikacija
